

POWERING AFFORDABLE CARE

to drive health centers forward

Our resources help improve your organization's **operational well-being**

Quality reporting

Quest Quality Reporting Data tracks and reports lab data to support the quality metrics that matter to you through claims data, HEDIS® report templates, custom reporting, and report retrieval.

Lab stewardship

Through Quest Lab Stewardship powered by hc1, we improve the quality of patient care while reducing costs to patients, hospitals, and health systems.

Clinical care programs

We identify effective population health strategies by studying at-risk populations and population trends to design programs to fit your needs and goals.

Electronic health record (EHR) integration

Supporting more than 600 EHR systems, our process for interfacing your EHR to Quest Diagnostics Laboratory Information System is completed in less than a month.

Simplifying lab-related risks

Quanam® Lab Services Manager streamlines operations so you can access the information you need when you need it.

Clinical decision support

We offer easy access to an industry-leading collection of clinical algorithms and over 600 medical and scientific experts.

Contact your sales representative to learn more about how we can help improve patient and organizational health
