

Help Close Gaps in Care with Scarlet®

Convenient, mobile specimen collections can help increase equitable access to testing and improve the member experience.

Scarlet Health® is BioReference's on-demand, fully integrated digital solution that offers mobile specimen collection at a convenient location of your members' choosing such as their home or workplace.

Scarlet gives members an easy option to stay current with their laboratory testing that can lower their overall healthcare costs and may lead to improved health outcomes.

Why Scarlet?

- Scarlet phlebotomists are highly trained BioReference employees
- Streamlined digital clinician workflow supports provider satisfaction
- Data visualization and reporting
- Simple online scheduling
- Meets the member where they are by enabling convenient mobile specimen collections at your member's doorstep

Early detection, treatment, and monitoring of many chronic diseases can **reduce morbidity, mortality, and healthcare costs.**^{1,2}

40% Yet about 40% of Americans report **skipping a recommended medical test or treatment.**³

58% Due to the COVID-19 pandemic, 58% of patients reported skipping preventative care consequently **missing essential screenings.**⁴

Scarlet is ideal for:

						
Members transitioning from post-acute to care at home	Members experiencing barriers to access such as transportation, childcare constraints, or mobility challenges	Safe and convenient COVID-19 testing	Pre-visit planning for comprehensive care	Screenings and regular testing for chronic disease management of diabetes, kidney disease, cardiovascular disease, etc	Prenatal testing	STI testing

How does Scarlet work?

1

Healthcare providers simply add Scarlet to their laboratory test orders

2

Scarlet sends members a text and email to schedule their appointments online (no app download required)

3

Scarlet phlebotomists go directly to members for specimen collection
