Diabetic Retinopathy Screening Module 2 Review

October 22, 2024

Agenda

Welcome and Introductions

- Rename yourself with name and role or put into chat

Acknowledgements

- It is a team effort – so much gratitude
- The CHCs 🌟
- CHCANYS 🙏
- Lisa Hoffer, Graphic Designer – Creative Solutions by Design 🌟

Discussion – How is DR screening going at your CHC?

Orientation to Module 2

Review of Module 2 and Companion Document

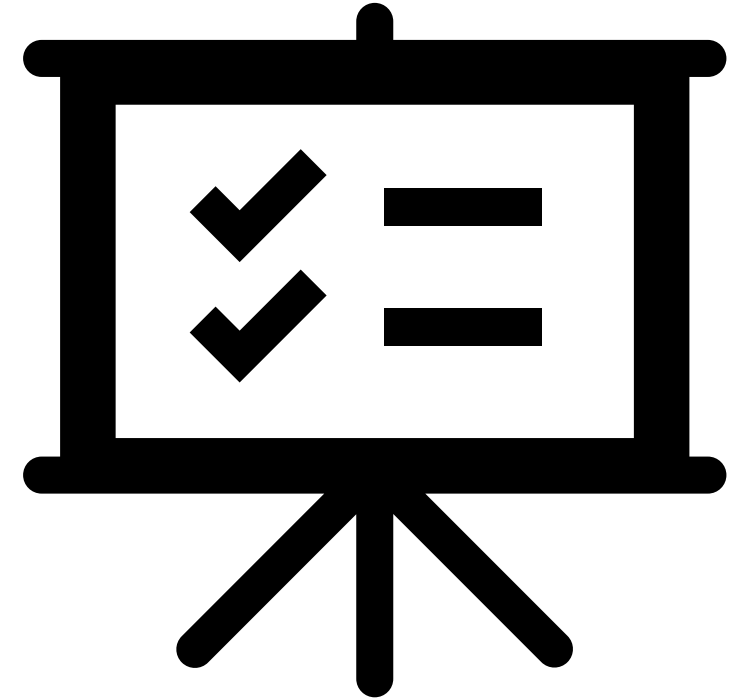

Questions – Throughout

Survey

Objectives for Today

- ✓ Gain familiarity with the scope and contents of Module 2
- ✓ Begin to visualize how best to apply and operationalize Module 2 of the the toolkit to augment the work you are already doing
- ✓ Consider (and share?) what your greatest opportunities and ideas are to improve CKD evaluation
- ✓ Provide input on which components of the toolkit are most helpful and/or need improvement

Control of blood glucose, early detection and evidence-based treatment are keys to preserving the sight of people with diabetes and has been shown to prevent vision loss in more than 90% of people.

Zoom Poll!!

How is diabetic retinopathy screening going at your CHC?

- Going well - We have established policies and procedures that are followed (e.g., for pre-visit planning and outreach).
- Going pretty well - We still have some opportunities to improve to identify and address those that are due.
- Unsure - I am unsure of the status of diabetic retinopathy screening at my CHC.

Does your CHC have at least one retinal camera?

- Yes
- No
- Unsure

Are you able to provide patient education?

- Yes - We provide a full range of patient education around screening and early treatment as well as risk factors for diabetic retinopathy.
- Mostly - We provide some patient education, but it is not standardized nor offered to all people with diabetes.

How's diabetic retinopathy (DR) screening going at your CHC?

- Is DR screening part of pre-visit planning and outreach?
- Can you schedule before patients leave clinic?
- Any issues still to sort out with retinal cameras?
- Any issues with kept DR screening appointments?
- How are your eye specialists at communication?
- Anything to share about patient education successes?

What keeps you from sleeping like a baby?

How many of my/our patients with T2D are due for have not been screened for diabetic retinopathy?

Who on the team is doing pre-visit planning to make sure we address those that are due for DR screening for ALL visits? Who's doing outreach?

How will I know if my/our patient(s) keep their DR screening appointments?

What is getting in the way of their keeping DR screening appointments, and can we help?

How can I be sure I get the results of DR screening?

Materials for Review and Feedback

Module 2 of the Toolkit

- Diabetic Retinopathy Screening

Companion Document

- Shared Care Partner Referral Agreement

Questions?

Please fill out our survey!

Please find the survey link in the chat/ you will receive a survey in a follow up email/ go here for survey

Completing your survey helps us to provide relevant and helpful information. Thank you in advance!

Thank you!
